elementary school

the first grade secondary school.

KINDERGARTENS

- Our kindergartens are intended for all children aged three to six years and they are the answer to their needs for education. For every boy or girl, the final goal of our Kindergartens is to develop their personalities, autonomy, their own skills and competences, civil awareness and citizenship.

THE FIRST EDUCATIONAL CYCLE

It covers the fundamental learning time which is required to acquire knowledge and build the characters and identities of the pupils. It prepares them for the situations of learning they will receive later, both in the classroom and in real life contexts. The main target of this cycle is to encourage full personality development. In doing this, the school accompanies its pupils towards the elaboration of their own experiences. It also promotes active citizenship and aids them in the acquisition and development of their cultural awareness.

The primary school aims to achieve the acquisition of basic learning for its pupils in order to make them exercise their first constitutional right. All the boys and girls who attend this school have the same opportunity to develop their cognitive abilities and their social interactions. It is a school for the personal development and growth, which through the various disciplines, allows its pupils to exercise their intellectual potential, creating a base for reflective and critical thinking. This is the way the school experience promotes the development of European responsible citizens.

SECONDARY SCHOOL- FIRST GRADE

Primary objective of the Secondary school-first grade is to make available to the students' knowledge, information and instruments which permit them to develop their potentials finalized in structuring a personality completely integrated on individual and social level.

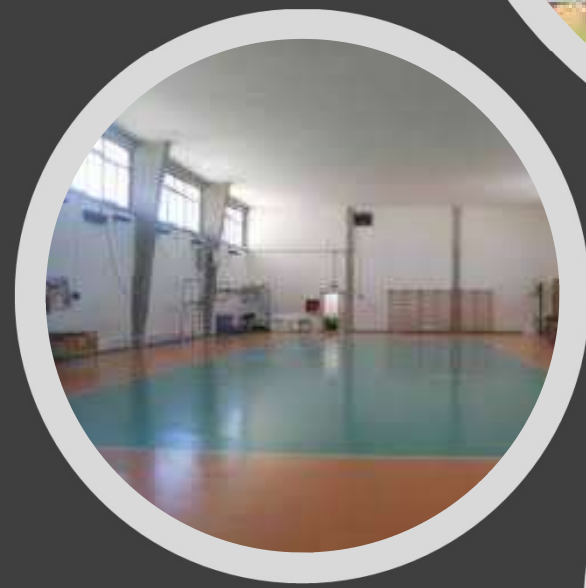

Maturation process of the children, in this difficult adolescence phase, is promoted with specific interventions from their entrance up to reaching of the pondered choice of the next level school. Particular interest is for the differences, being cultural or personal.
